tiltnturn silver pitch and sky tint

tiltnturn silver pitch with origin pebble

tiltnturn grey horizon

tiltnturn is inspired by a fascination with how light reflects on and off angled surfaces, bringing life to solid colour. Pops of light and shade sit alongside harmonising mid tones. As the product is installed, new angles and shapes emerge alongside areas of quiet, creating a unique effect in each space. The overall effect is contemporary yet calm and unique.

tiltturn ash profile and green space

The smooth transition from darker tones to lighter tones within tiltturn reflect the amazing effects of light and shadow which surround us every day. All colours work alone, or can be grouped together. Either option will complement other furniture and finishes within each project.
